How the News Traveled With Almost Increable, Rapidity Through Congress and the Federal Departments.

(By telegraph to the Irispatch.)

WASHINGTON, D. C., Sept. 2.-Another girl baby was born to President and Mrs. Cleveland to-day. The birth of a baby in the White House was of course an event in which more than usual interest was felt. In an incredibly short space of time the news was known in Congress and was spread throughout all the departments. The imminence of the important event was made known early in the day by the issue of an order countermanding the usual Saturday concert by the Marine Band in the White House grounds, Dr. temperance. It was my fortune to be with him as a schoolboy and in the ranks of war, and I well remember the keenly analytical powers of his intellect, his literary quality of finding the precise word to express his clear-cut ideas, his gift of sprightly sarcasm and his irrepressible humor, at once wholesome and pointed. His farreaching vision and grasp of thought enable him to avail himself of all the opportunity affords, and constitute him a great general who is certain to gain a great following, unless he suffers a monstrous fail and that does not seem to be probable just now.

Celestials Coming In.

(By telegraph to the Dispatch.)

San Antonio. Texas, September 9.—Colonel R. M. Moore, special agent of the United States Treasury Department, has just received information from the border that the coming of Chinese from Mexico into the United States continues unabated, and that the frontier of Mexico is thronged with Celestials, who are waiting for a favorable opportunity to cross the Rio Grande. The smuggling of the unwelcome foreigners into the country is worked so smoothly that comparatively few of them are captured. Out of several hundred that have undoubtedly reached Texas soil during the past three months, only about forty have been apprehended, and these are in jail at San Antonio.
